

A worker working on telecommunications fiber optic cables

Overview

Fiber optic technicians and telecom workers are in charge of installing, maintaining, and fixing fiber optic network systems. This can involve working with lasers, precision equipment, micro-scale glass fragments, heights, tools, and working near or with utility or electrical infrastructure. In my discussion with the BLS analysts, I pointed out the various stages of a fiber optic communications network project and how techs. 78,532 working on fibre optic cables stock photos, vectors, and illustrations are available royalty-free for download. Template technician Fiberoptic Fusion Splicing. Fiber optics is the technology that made the Internet possible and today provides the backbone for not only the Internet but also wireless. Fibre optic technicians maintain digital and fibre optic systems and install broadband internet and phone networks.
