

ASEAN Precision Distribution Box Configuration Table

Article Overview

ASEAN precision distribution boxes vary by series, dimensions, and standards, with common types including MB-ABC, MB-AF, MB-AS, and MB-LF, typically made of flame-resistant ABS plastic.

Overview

Distribution boxes in ASEAN serve as modular enclosures for electrical circuits, protecting equipment, dividing power flows, and ensuring safety. Standards differ across countries—Malaysia follows British-derived specs, Thailand uses US guidelines, Vietnam blends French and Russian influences, and Singapore has premium-tier requirements . Harmonization efforts aim to improve reliability, disaster recovery, and compatibility across the region.

Typical Box Series and Dimensions

Series	Length (mm)	Width (mm)	Height (mm)	Features / Notes
MB-ABC500	200	174	95	Flush series, modular, flame-resistant ABS, BS EN60439-3 compliant
MB-ABC700	255	172	95	Modular combination equipment, suitable for AC 50Hz, 220V/380V
MB-ABC900	328	172	95	Easy installation/dismounting, impulse-proof, excellent insulation
MB-AF100	415	105	323	75-140 Plastic modular boxes for residential and commercial use
MB-AS100	415	105	323	75-140 Modular distribution boards, ABS material, flame-proof
MB-LF100	415	105	323	75-140 Supports multiple ways/outlets, suitable for high-rise and industrial applications

All boxes are made of flame-resistant ABS plastic, designed for AC 50Hz circuits wit...
