Article Overview

EzyStrut, Ozstrut, Axelent, Burndy CSS, and Brilltech are leading Australian manufacturers of cable trays, offering durable, compliant, and versatile solutions for commercial and industrial projects.

Leading Manufacturers

EzyStrut is one of Australia's most prominent cable tray manufacturers, with over 35 years of experience. They offer a wide range of products including ladder trays, solid-bottom trays, and wire mesh trays, suitable for mining, telecommunications, and construction sectors. Their trays are engineered to comply with Australian standards and are available in pre-galvanised steel, hot-dip galvanised steel, and aluminium. EzyStrut also provides custom solutions for high-volume or specialized projects, including fire-rated and seismic-compliant systems. Ozstrut supplies a variety of cable trays for commercial and industrial installations. Their product line includes perforated trays for light-duty applications, T3 trays for standard industrial use, and T5 trays for heavy-duty installations. These trays are designed to support heavy cable loads, improve installation efficiency, and comply with Australian standards. Axelent specializes in cable basket trays integrated with their X-Tray system, which combines cable management with machine guarding solutions. Their products are ideal for data centers, telecom installations, and industrial environments where organized, space-saving cable routing is essential. Burndy CSS (Cable Support Systems) manufactures cable trays designed for extreme conditions, including high temperatures and corrosive environments. Their solutions are widely used in oil and gas, mining, and power generation industries, offering both standard and custom trays for flexible installation. Brilltech provides a range of cable tray solutions for c...
