

Austrian Government and Enterprise Smart Distribution Box Manufacturer

Article Overview

Key Austrian manufacturers of smart distribution boxes include Wieland, ELIN, GIFAS-ELECTRIC GmbH, and EPS Electric Power Systems GmbH, offering solutions for decentralized and smart building electrical distribution.

Leading Manufacturers

Wieland Electric provides smart and pluggable distribution boxes suitable for decentralized electrical installations in smart buildings. Their products support power, signal, and I&C applications, with compliance to IEC 61439 and IEC 61535 standards. Wieland emphasizes energy efficiency, flexible communication-enabled systems, and robust designs for harsh environments, making them suitable for both new construction and renovation projects. ELIN specializes in electrical engineering solutions, including high and medium voltage systems and uninterrupted power supply (UPS) systems. Their expertise is particularly valuable for sensitive infrastructure such as hospitals, airports, and municipal networks, ensuring reliable and tailored electrical distribution. GIFAS-ELECTRIC GmbH offers a diverse range of electrical distribution products, including solid rubber distributors, underfloor distributors, energy pillars, and floor sockets. They focus on high-quality, custom-configured solutions for various sectors, supporting both enterprise and industrial applications. EPS Electric Power Systems GmbH provides comprehensive services for planning, installation, and maintenance of power distribution systems. Their offerings include room-in-room solutions and UPS systems, making them a strong partner for data centers and enterprise-level electrical infrastructure
