

Barbados 24-core Smart Building Fiber Optic Cable

Article Overview

24-core fiber optic cables for smart buildings in Barbados are compatible with LC, SC, and ST connectors, designed for high-performance indoor and outdoor network installations.

Cable Specifications

The 24-core smart building fiber optic cable is designed for backbone and distribution networks, featuring:

- Stranded loose tube design with thixotropic jelly or dry-block construction to prevent water ingress and ensure stable performance over a wide temperature range .
 - Steel tape armoring for rodent protection and enhanced durability .
 - Kevlar-reinforced sheath for tensile strength and tear resistance .
 - OM3 multi-mode or single-mode fibers suitable for high-speed data transmission inside buildings .
 - Low-smoke, zero-halogen jackets for indoor safety and environmental compliance .
- These cables are suitable for direct burial, duct, or aerial installations, making them versatile for smart building infrastructure .

Connector Compatibility

The 24-core cables can be terminated with LC, SC, or ST connectors, which are wide...
