

Cable tray quotation partition

Article Overview

To obtain a cable tray quotation, provide tray type, dimensions, material, finish, and partition requirements to suppliers for an accurate estimate.

Key Steps for Requesting a Quotation

- **Specify Cable Tray Type and Material** Identify whether you need perforated, ladder, or solid-bottom trays and the material (GI, stainless steel, aluminum, or powder-coated) as this affects cost and suitability for your installation .
- **Provide Dimensions and Partition Details** Include width, height, and length of trays, along with the number and type of partitions required. Partitioned trays help separate different cable types for safety and organization.
- **Include Accessories** Mention any coupler plates, covers, bends, or supports needed. For example, coupler plates for 25–50 mm height trays cost around ₹16 per piece, while 75–100 mm trays cost ₹30 per piece in Mumbai .
- **Compliance and Standards** Ensure trays meet local and international standards such as BS EN 61537, NEMA, CENELEC EN 50173-1, or ISO/IEC 11801-1:2017 . This is important for safety, quality, and regulatory approval.
- **Request Delivery and Pricing Terms** Specify delivery location, lead time, and minimum order quantity. Some suppliers provide ex-stock delivery within 3–5 days, with GST or other taxes applied separately .
- **Submit a Quote Request Form** Many suppliers, like MP Husky, offer online forms where you can submit all required details for a formal estimate . Include your contact information for follow-up.
