

Cost of electrical control box and distribution box

Article Overview

Distribution boxes typically range from \$50 to \$1,500 depending on capacity and features, while control boxes vary widely from \$100 to over \$2,000 based on customization and industrial requirements.

Distribution Box Pricing

The cost of a distribution box depends on voltage rating, amperage capacity, number of circuits, material, and additional features such as smart monitoring or weather resistance . Typical price ranges include:

- Residential single-phase units: \$50-\$300
 - Commercial three-phase units: \$300-\$1,000
 - Industrial heavy-duty or smart DB boxes: \$1,000-\$1,500 or more
- Factors influencing cost include corrosion-resistant materials, advanced insulation, surge protection, and integration with building management systems . Outdoor-rated or weatherproof enclosures generally carry a premium due to enhanced durability and safety .

Control Box Pricing

A control box is designed to manage machinery or processes, often including switches, relays, contactors, and PLC integration . Pricing varies significantly based on:...
