

Cost of wiring for managed fiber optic switches

Article Overview

Wiring for managed fiber optic switches typically costs between \$200 and \$1,000 per drop, depending on fiber type, length, and installation complexity.

Material Costs

Fiber optic cable prices vary widely based on type, strand count, and construction:

- Single-mode fiber: \$0.10–\$0.50 per foot for standard indoor cable; outdoor or long-distance variants can reach \$0.50 per foot or more .
- Multimode fiber (OM2, OM3, OM4, OM5): \$0.10–\$0.60 per foot, with higher strand counts increasing costs proportionally .
- Armored or direct-burial cables: \$0.30–\$1.50 per foot, suitable for harsh environments or outdoor runs .
- Pre-terminated patch cables: Additional cost depending on connector type and fiber count, often \$10–\$50 per cable.

Installation Costs

Professional installation adds significant cost, influenced by drop count, cable routing, and termination:

- Per drop installation: \$250–\$1,000 per drop, including cable, connectors, and labor .
- Network panel and switch setup: \$200–\$500 extra per switch or enclosure
