

Dongtou FRP Cable Tray

Overview

Our non-conductive GRP / FRP cable tray systems provide electrical insulation compared with metal cable management systems, with an open and accessible tray design that supports straightforward cable entry, routing and exit for faster installation, easier maintenance and future. Our non-conductive GRP / FRP cable tray systems provide electrical insulation compared with metal cable management systems, with an open and accessible tray design that supports straightforward cable entry, routing and exit for faster installation, easier maintenance and future. Lightweight yet robust and resistant to corrosion, fiberglass ladder tray often outperforms galvanized or stainless steel over the life cycle. Creative Enduro's stringent quality standards and composites expertise produce the leading FRP cable ladder tray systems for corrosive and demanding. EDAO is a leading manufacturer of FRP cable trays in China with 15 years of experience. We specialize in the R&D and production of fiberglass cable trays. FRP cable tray is a non-metallic support system for routing electrical and data cables in industrial and commercial buildings.
