

Equipment mesh cable tray price

Article Overview

Wire mesh cable trays typically range from \$20 to \$200 per section, depending on size, material, and supplier.

Overview of Pricing

The cost of mesh cable trays varies widely based on material, dimensions, and supplier. For standard wire mesh or basket trays, prices generally start around \$20-\$50 for small sections suitable for light-duty or residential use, while larger industrial-grade trays can cost \$100-\$200 or more per section . Bulk purchases for construction or data center projects often reduce the per-unit cost, especially when sourced directly from manufacturers or distributors like Schneider Electric, Eaton, or Legrand .

Material and Size Considerations

- **Material:** Stainless steel (SS 304) and galvanized steel are common for durability and corrosion resistance, with stainless steel typically costing more .
- **Dimensions:** Width, depth, and length affect price; wider or deeper trays require more material and are more expensive.
- **Accessories:** Fittings, bends, tees, and mounting hardware add to the total cost. Wire mesh trays are modular, so complete systems include straight sections plus connectors .
