

# Fiber Optic Fusion Splice Box 24-core FC Multimode

## Overview

CH-24F-FS 24 Fibers Splice Tray provides secure organization and protection for up to 24 fusion splices, ensuring reliable performance in FTTx, data center, and enterprise networks. Its compact capacity and stackable design make it ideal for small-scale or distributed fiber. The fusion splice tray is designed to provide a location for storing and protecting optical cables and splicing. It is mainly used for management of cable junction box and wall mounted junction box. The splicing tray extends the function of optical fiber splicing and provides splicing position for. These fiber splice trays, adapter panels and cable fan-out kits can accept up to 24 fibers.
