

Georgian Rainproof Galvanized Cable Tray Prices

Article Overview

The price of galvanized, rainproof cable trays typically ranges from \$2 to \$25 per meter, depending on material, type, size, and coating.

Price Overview

Galvanized steel cable trays are the most common choice for outdoor and rain-exposed installations due to their corrosion resistance and durability. The cost per meter varies based on:

- **Material and coating:** Hot-dip galvanized (HDG) trays are more durable and slightly more expensive than pre-galvanized steel, while stainless steel is pricier but highly corrosion-resistant. Powder-coated trays offer additional protection and color options but increase cost .
- **Tray type:** Ladder trays, perforated trays, and wire mesh trays differ in price. Ladder trays support heavier cables and cost more, while perforated or wire mesh trays are lighter and cheaper .
- **Size and load capacity:** Wider or higher trays designed for heavy cable loads are more expensive. Standard widths and heights reduce cost .
- **Quantity and customization:** Bulk orders or project-specific custom sizes can lower the per-meter price. Custom fittings, brackets, and accessories may add to the total cost .
