

Guinea MPO Fiber Optic Patch Cord

Article Overview

MPO/MTP fiber optic patch cords are available in Guinea, including 12-strand MTP/MPO-style cables, suitable for high-speed network applications.

Product Overview

MPO (Multi-Fiber Push-On) or MTP (Mechanical Transfer Push-On) patch cords are high-density fiber optic cables designed for multi-fiber interconnections, supporting 8, 12, 16, 24, or 32 fibers per cable . They are widely used in data centers, high-speed networks, and cloud platforms due to their ability to handle 40G, 100G, and beyond . MPO/MTP connectors feature a push-on/pull-off mechanism for consistent and repeatable connections, and all connectors are factory-polished and tested for low insertion loss and high return loss .

Availability in Guinea

You can purchase MPO/MTP fiber optic patch cords online in Guinea through platforms like Ubuy Guinea, which offers products such as a 12-strand MTP/MPO-style patch cord, 9/125 μm , 3 meters (9.8 ft.) without pins . Ubuy provides express shipping services, making it convenient to order even if the product is not locally stocked. Delivery times vary depending on the shipping method selected at checkout .

Technical Specifications

- Fiber Count: 8, 12, 16, 24, 32 fibers (customizable)...
