

How much does it cost to set up a data center rack in the UAE

Article Overview

Setting up a single data center rack in the UAE typically costs between \$5,000 and \$50,000 per year, depending on specifications, power, cooling, and network requirements.

Hardware Costs

The barebones price of a standard server rack ranges from \$1,000 to \$5,000, depending on size (commonly 42U or 48U), frame material (steel is cheaper, aluminum is more expensive), and additional features like cable management and airflow provisions (Cyfuture), . Accessories such as shelves, drawers, and power distribution units (PDUs) can further increase the cost.

Installation and Setup

Mounting a rack in a data center typically costs \$100 to \$500 per rack, covering labor and materials to ensure stability. Power and cooling connections add another \$500 to \$2,000 per rack, depending on the power density and cooling method (air-cooled vs liquid-cooled). Network connectivity to the data center infrastructure can cost \$200 to \$1,000 per rack .

Operational and Annual Costs

The total annual cost per rack, including hardware, installation, power, cooling, and...
