

- **Mounting Brackets or Straps:** Use pole-mount brackets, U-bolts, or stainless steel straps designed for utility poles. These provide a secure attachment without damaging the pole. Adjustable brackets allow proper alignment and positioning of the box .
- **Fasteners:** Use corrosion-resistant screws, bolts, or U-bolts to attach the box or bracket to the pole. Ensure the fasteners are tight enough to prevent movement but do not split or crack the pole material .
- **Positioning:** Mount the box at a height that is accessible for maintenance but out of reach of casual contact. Ensure the box is level and flush with the mounting surface to prevent water pooling and reduce strain on the wiring
