

Huijue Outdoor Single-Mode Optical Cable Model

Overview

GYXTW is designed specifically for outdoor use, featuring a central strength member and supporting up to 24 fiber bundles, making it suitable for various applications, from telecommunications to security systems. Outdoor Optical Drop Cables are specialized outdoor fiber cables designed for FTTX and outdoor fiber access – primarily connecting Base Band Units (BBU) to Radio Remote Units (RRU/AAU). Supporting 5G small cells and traditional macro base station outdoor remote deployment, these cables use G657A2. Low-smoke, halogen-free environmentally friendly material, with high-grade flame retardancy, non-toxic and non-corrosive, fully compliant with building fire safety standards, facilitating the rapid completion of project acceptance. Delivery time: 45 days after order 3. Operation & maintenance manual (English Version) available. The unique fiber excess length control method provides the cable with excellent mechanical and environmental properties.
