

Manufacturer of Four-core Optical Cable Splicing Accessories

Article Overview

Leading manufacturers of four-core optical cable splicing accessories include Fujikura, AFL, Sumitomo, OFS FITELE, and LAPP, offering fusion splicers, cleavers, protection sleeves, and related tools.

Key Manufacturers and Their Offerings

Fujikura is a global leader in fiber optic splicing technology, providing high-quality fusion splicers such as the 100S core alignment splicer and 45S cladding alignment splicer. Their products are known for precision, automation, and reliability, suitable for splicing multi-core optical cables including four-core configurations. Fujikura also offers splicing accessories like protection sleeves and V-groove assemblies to ensure minimal downtime and high productivity. AFL manufactures a wide range of fiber optic splicing equipment, including core alignment fusion splicers, fiber cleavers, and recoaters. Their products, such as the AFL 100S Core Alignment Fusion Splicer and CT60 Fiber Optic Cleaver, are designed for high-quality, repeatable splicing and are compatible with multi-core optical cables. Sumitomo and OFS FITELE These brands are recognized for their advanced fusion splicers and cleaving tools. They provide durable, high-precision splicing equipment suitable for four-core optical cables, often distributed through partners like Light Brigade. LAPP offers a comprehensive range of splicing accessories, including splicing cartridges, protection holders, and sleeves. Their products are designed for compact splicing boxes and data center applications, making them suitable for four-core optical cable installations. Distributors and Suppliers...
