

Outdoor Fiber Optic Cable Fusion Box

Overview

This 4 strand optical fiber distribution box is used for the fusion splicing, splitting, wiring transmission and other functions of the optical transmission terminal. Through the adapter in the distribution box, the optical signal is led out by the optical jumper to realize the optical wiring function. Here are some of the key features: Outdoor fiber distribution box is designed to withstand harsh environmental conditions such as extreme temperatures, humidity, and physical shock. Our Outdoor Fiber Termination Boxes are specially designed to house and protect the various amounts of simplex or duplex adapters that you need for FTTH, FTTB, or FTTC. Easily connect your SC or LC adapters into an Outdoor Fiber Enclosure and be able to split out your bulk fiber in up to 16. This FIS Outside Plant Direct Burial Closure offers the perfect choice for low fiber count distribution applications involving butt and inline installations. Dimensions: 21" L x 8" W. The images are a representation of the product.
