

Price List for Mobile Optical Cable Detectors

Article Overview

Mobile optical cable detectors typically range from \$100 to over \$1,500 depending on features, brand, and detection capabilities.

Overview of Price Ranges

- Entry-level portable cable detectors: Basic handheld devices for wire tracing and fault detection can start around \$100–\$300 on platforms like Amazon, suitable for small-scale or DIY applications .
- Mid-range professional detectors: Devices with enhanced detection depth, acoustic signal generators, and support for multiple cable types (twisted-pair, coaxial, fiber optic) generally cost \$400–\$900 .
- High-end industrial optical cable detectors: Advanced models with network analysis, precise calibration, and compatibility with structured cabling systems can exceed \$1,000–\$1,500, often used in telecommunications, data centers, and large-scale infrastructure projects .

Notable Brands and Models

- PCE Instruments: Offers models like the PCE-160 CT, PCE-191 CB, and PCE-180 CBN, which provide line location, continuity testing, and fault detection for various cable types including fiber optic, coaxial, and twisted-pair cables .
- Amazon Listings: Products such as the NOYafa NF-826 Underground Cable Locator and VEVOR Wire Tracer are available for portable cable detection, with prices varyi...
