

Price of Extended and Fixed Cable Tray Brackets

Article Overview

Cable tray brackets, including extended (stand-off) and fixed (wall or G hanger) types, typically range from \$10 to \$50 per unit depending on size, material, and finish.

Types of Cable Tray Brackets

Stand-Off Brackets (Extended Brackets): These brackets provide clearance between the wall or mounting surface and the cable tray, allowing for ventilation and easier cable access. Sizes commonly range from 50mm to 300mm, and materials include pre-galvanized steel, hot-dipped galvanized steel, and stainless steel (A316/A4). They are ideal for mounting trays or baskets at a specific distance from walls or surfaces, supporting heavy loads without sagging.

G Hanger Brackets (Fixed/Overhead Support): G hanger brackets are designed for overhead support of cable trays, trunking, or baskets. Common sizes include 100mm, 150mm, and 225mm, with thicknesses around 2mm. They are typically pre-galvanized or hot-dipped galvanized and sold individually. These brackets are heavy-duty, rigid, and easy to install, suitable for industrial and commercial applications.

Wall-Mounted Brackets: Wall brackets provide a secure, durable solution for mounting cable trays directly to walls. They are often hot-dip or sendzimir galvanized for corrosion resistance and high load capacity. These brackets are widely used in industrial facilities, commercial buildings, research centers, and vehicle fit-outs.
