

Price of Miller clamps for fiber optic cables

Article Overview

Miller clamps for fiber optic cables typically range from \$15 to \$60 per unit, depending on the model, supplier, and included features.

Miller clamps are widely used in fiber optic installations for secure cable fastening and precise fiber stripping, ensuring signal integrity and reducing mechanical stress on cables . The price varies based on the type of clamp, such as standard FTTH clamps, ratcheting splitter models, or multi-hole fiber stripping tools .

Typical Price Ranges

- Basic FTTH Miller clamps: Around \$15–\$25 per unit, suitable for small-scale or home installations .
- Professional-grade clamps: Approximately \$30–\$60, often including ratcheting or multi-functional features for industrial or high-volume use .
- Bulk or kit options: Some suppliers offer tool kits with multiple clamps and fiber tools, which can range from \$50 to \$150, depending on the included accessories .

Where to Buy

- Alibaba: Offers a wide selection of Miller clamps and FTTH kits; prices may require direct supplier inquiry for bulk orders .
- AliExpress: Individual clamps like the F11301T model are available, often in the lower price range for single-unit purchases
