

Senior Technician in Power System Relay Protection

Overview

The Senior Relay Technician is responsible for leading and executing the testing, commissioning, and troubleshooting of protective relays, control systems, and associated equipment within electrical substations and Battery Energy Storage Systems (BESS). This role serves as a technical authority and. The Sr. Junior technicians typically assist with basic. SEL University trains power system engineers, technicians, and managers to meet their immediate and long-term workforce training needs. Our experienced instructors and instructional designers create courses that cover topics ranging from fundamental power system principles to hands-on SEL product. Can't speak for utility guys, but at a NETA company, the relay techs are usually the smartest and most adaptable of the bunch with the most variable workload.
