

Swiss gigabit optical module price quote

Article Overview

Gigabit SFP optical modules in Switzerland typically range from CHF 30 to CHF 80 per unit, depending on brand, type, and transmission distance.

Overview of Available Modules

In Switzerland, Intellinet Gigabit Fiber SFP Optical modules are available through Digitec. These modules operate at 850 nm wavelength and are designed for high-speed fiber optic networks, offering reliable data transfer and plug-and-play installation. They are suitable for enterprise networks requiring low latency and high bandwidth. The modules are compatible with a variety of network devices, including switches, routers, and servers.

FS.com also offers 1G SFP transceivers with both fiber and copper options, supporting standards such as 1000BASE-SX, 1000BASE-LX/LH, and 1000BASE-T, with transmission ranges from 100 meters to 160 km. These modules are widely used in professional network setups and are shipped from nearby warehouses, which can reduce delivery time in Switzerland.

Price Considerations

- Entry-level multi-mode SFPs (short-range, 850 nm) generally cost around CHF 30–50 per module.
- Single-mode SFPs (long-range, 1310 nm or 1550 nm) can range from CHF 50–80, depending on distance and vendor.
- Prices may vary based on brand, warranty, and supplier promotions. Bulk purchas...
