

West Africa SC Adapter Manufacturer

Article Overview

ScreenCheck Africa and ScaleFibre Africa are key suppliers of SC fibre optic adapters in West Africa, including Ghana and Nigeria.

ScreenCheck Africa

ScreenCheck Africa supplies DConnect SC Adapters across multiple African countries, including Ghana and Nigeria. These adapters feature zirconia ceramic alignment sleeves for precise fibre mating, ensuring low insertion loss and high return loss in both single-mode and multimode applications. They are available in simplex and duplex formats, with flanged or unflanged mounting options, and are suitable for telecom, FTTH, CATV, and data centre environments. The adapters are designed for durability, rated for over 1,000 mating cycles, and operate reliably in temperatures from -40°C to +75°C indoors or outdoors (ScreenCheck Africa) .

ScaleFibre Africa

ScaleFibre Africa offers automatic-shutter SC fibre adapters with ceramic alignment sleeves for low-loss connections in single-mode and multi-mode networks. Their adapters are compact, flangeless, and include dust and laser protection for unmated ports. The housings are made from engineered polymer with colour-coded bodies for easy port identification. These adapters comply with IEC, TIA, and FOCIS standards, making them suitable for high-density panels, fibre cassettes, and rack-mount housings (ScaleFibre Africa) .
