

Wholesale price of temperature sensing cable terminal box

Article Overview

Temperature-sensing cable terminal boxes typically cost between \$0.8 and \$5 per unit wholesale for standard models, with advanced or specialized models priced higher.

Price Range for Standard Terminal Boxes

Basic industrial temperature sensor junction boxes, often made from ABS plastic with IP55 waterproofing, are available for wholesale purchase starting at \$0.8 to \$5 per unit depending on size, material, and supplier terms, and can be purchased in single units or bulk for resale purposes (Alibaba) . These are suitable for general temperature monitoring applications and provide basic protection for sensor connections.

Advanced and Specialized Models

For more sophisticated applications, such as linear temperature sensing fire detection systems, terminal boxes like the Micro Exploration Technology JTW-LD-WT-302 are designed to integrate with linear sensing cables and provide robust protection in industrial environments. Pricing for these advanced models is typically not listed publicly and may require direct contact with the manufacturer or distributor for bulk quotes (MRO Expert) . Features such as high-quality materials, environmental protection, and multi-channel support can significantly increase the cost....
